

To Dr. Howe and the Staff of Mc. Scott Family
Dentistry,

I cannot begin to tell you how much I appreciate your services. But it's more than just being an awesome Dental Clinic. From the moment we walked in the door about five years ago we knew you were an incredible dentist with an incredible staff. Every time we walk in your door we get the warmest greetings from everyone. I mean you even know my kids' names. And some of them don't have teeth yet! Our family has truly found something special. The quality of work and all around good vibe we get every time we have an appointment has prompted me to start bringing family and friend to you. Because there isn't a person who I don't highly recommend you to. My grandmother, who I recently brought in, had some denture issues. Without hesitation, we had an appointment time, procedure plan, and completion time for the work to be done. You put my grandmothers mind at ease and I felt like this was more of a family than a practice.

Thank you for all the things you do,
The Isse Family
